

# NOW YOU CAN ADD TURBO PERFORMANCE TO EVERY OUT RUN™

Winners don't  
use drugs

**SEGA®**

Copyright 1991 SEGA Enterprises Inc. -LSA

The TURBO OUTRUN™ Kit will add new revenue-producing horsepower to every existing upright, standard, or deluxe type Out Run. This low-cost, easy-to-install kit retains all the innovative features of the original Out Run. Like the realistic vibrating steering wheel on the upright model, and the side-to-side cabinet motion on the standard and deluxe models. And it adds the turbo-charged speed and excitement of the all-new TURBO OUTRUN.

With new play action, exciting new scenes, greater speed, and powerful new enhanced-resolution graphics, the TURBO OUTRUN kit will restore all the earning power of your original Out Runs.

Call your authorized SEGA distributor for a test ride and see for yourself what turbo-charged performance is all about.
